

Lance Reader, 2004 World Long Drive Record

Lance Reader, Krank Golf Founder
Phoenix, AZ
6' 2" 190 lbs

Long-drive Accomplishments:

- 2004 World Record Drive – 526 yards
- 2004 LDA District Qualifier 1st Place
- 2003 LDA Long Drive Tour Member
- 2003 Buick Open Long Drive Champion
- 2003 LDA District Qualifier 1st Place
- Krank Golf - Founder and President

Statistics:

- Highest swing speed recorded – 158 mph
- Highest ball speed recorded – 218 mph
- Longest competitive drive – 526, 521, 518, 516 yards

I currently compete as a Professional Long Drive Golfer and own Krank Golf. We manufacture custom made driver for golf and long drive. After years of competing in long drive I developed a very sore right elbow tendon. Nothing seemed to get rid of the pain and discomfort. It became almost impossible to compete or even pick up my kids to give them a hug. After trying everything I could get my hands on and nothing relieving my pain, I decided to try the Quantum Pendant. Amazing!

Not only was my pain significantly reduced, but also my range of motion was increased. I also noticed as I wore the pendant in competition, my concentration was far more focused and clear. I was more calm and controlled. I ended up winning the long drive event, hitting 427 yards. It always feels good to beat all the young guns in long drive.

You see, I'm 44 years old; three years ago I broke the World Long Drive record, hitting 526 yards. Since then, I feel I have slipped a little in distance and accuracy. I believe it is mainly due to nagging injuries and lack of concentration. As far as I can tell the Quantum Pendant has resolved both those issues. I am grateful.

Shalin Zulkifli, World Bowling Champion

- Credentials include Malaysian National Bowling Team Member for the past 14 years
- 5 times Malaysian National Sportswoman Award Winner
- International Bowling Hall of Fame inductee
- World Bowling Champion
- 5 times National Champion
- Ranked 4th in the World in 2007.

As a full time national athlete and businesswoman, I live a very fast paced and hectic lifestyle. As an athlete, I train daily and I bowl an average of 20 tournaments overseas a year. When I'm not training or competing overseas, I run my Bowling Centre "Pin Junction" with my fiancée and family. At times I would work 16 hours a day on top of my daily training and gym workout sessions.

I have constantly experienced muscle aches, fatigue and high stress situations in my work and when I'm competing. Since I was introduced to and started wearing FusionExcel's Quantum Pendant, I have felt and experienced a fantastic increase in my ability to concentrate on my competitive and business commitments.

Bowling is a sport that requires maintaining a high level of concentration for a long period (we compete for about 4 to 6 hours) of time, balance and stamina. After wearing the Quantum Pendant, I feel more energized, more alert and my stamina has improved tremendously. It has given me the winning edge over my opponents because I feel more calm, relaxed and confident when I compete and it has translated into an improvement in my performance. I even bowled a perfect game (300 games, 12 strikes in a row) with it after a week!

I would strongly recommend the Quantum Pendant to everyone; if it has helped me; imagine what it can do for you!

Malek Noor, KL (Champion Body Builder)

Sport Achievements:

- 2 times Finalist Mr. Universe (Heavyweight)
- 6 times Mr. Asia (Heavyweight)
- 4 times Mr. Asean (Heavyweight)
- 6 times Mr. Malaysia (Heavyweight)

Special Awards:

- Malaysian Sportsman of the Year – 1985
- Gold Benson & Hedges Sports Personality Awards – 1985
- Ahli Mangku Negara (AMN) Medal – 1986
- Sultan Ibrahim (PIS) Medal – 1986

“Quantum Pendant is nothing religious. It is given by God to heal you and for your health” - Malek Noor

I had a major operation done a few years ago to reconnect the tissue on my left arm. As a result I was having difficulty in clasping my left hand fingers. However after putting on the FusionExcel's Quantum Pendant recently, amazingly I am able to clasp my left hand fingers with ease now. I also discovered that I am now able to walk immediately after standing up from the seat.

Prior to this, I had to wait for few seconds before I could walk after getting up from the chair. I started having this problem as a result of the three operations done on my left knee and one on the right to fix my torn ligaments. Now I am happy to have found FusionExcel's amazing Quantum Pendant. I also feel more focus & calm. Even food taste better. The stiff elbow I used to have is now gone so are the headaches & colds I used to have as a result of sleeping late nights. Toothache is no longer a problem. Best of all I feel more energetic and my sexual interest is enhanced.

I also operate a few gymnasiums. I tried the FusionExcel's Quantum Pendant on few people in the gym and they reported that it makes them lift the weights much easier. I also tried the FusionExcel's Quantum Pendant on a friend of mine who happens to be a sharp shooter in the police force and he reported that it made his arm more stable during firing practice and also it relieved him of stomach aches & toothaches. Others reported disappearing of numbness in their arm as well as increased in energy.

Jean Daniels, International Golf Long Drive Specialist

My name is Jean Daniels. I am a South African but currently residing in Malaysia. I am an International Golf Long Drive Specialist. I have competed in the REMAX World Long Drive Tour for over 10 years. I have won 14 international long drive events. Hitting the golf ball over 400 yards **regularly** is a must in these events. I also run trick shot entertainment shows where I entertain golfers. In the shows I hit golf balls with many different strange equipments like:

A rod made from rubber hose
A driver with a motor bike chain for a shaft
A driver with 2 hinges in the shaft
A hammer.... To name a few

I can also hit:

A golf ball with a putter over 200 yards.
A golf ball with a 7 Iron over 200 yards.
A golf ball up to 300 yards **while on my knees**

I can also hit a ball over, under, around and through many different objects.

In these trick shot shows I can't afford to make any mistakes. For both long drive and the trick shows, **BALANCE, FLEXIBILITY, MENTAL AWARENESS** and **STAMINA** are very important factors which aids in maintaining consistency and the ability to perform the best

The problem is as I'm getting older, all of the important factors are getting more difficult to achieve. About a month ago I was introduced to FusionExcel's Quantum Pendant. At first I was very skeptical about the product and thought there must be some trick. After wearing the Quantum Pendant for about 2 weeks I started to realize the differences. Balance improvements were almost immediate even just practicing I could feel the difference. During golf shows, I made less mistakes and my stamina is better. Minor injuries like stiffness, joint pains and muscle pulls which happen all the time, heal faster.

The Quantum Pendant has definitely given me an added advantage to perform better. I really recommend the pendant to all golfers. Try it! It really works!

Foo Kok Keong, International Badminton Champion

- 1991 IBF Ranking World No. 1 Single Player
- 1992 Champion Thomas Cup Team
- 1994 Champion Asian Badminton Championship

For the past 5 years I was having serious pain on my right knee cap due to many years of competitive sport including International Badminton Tournaments. After putting on the FusionExcel Quantum Pendant for just a few days, I begin to experience amazing relief of pain on my right knee cap. Recently, my stamina during sporting games had also **IMPROVED TREMENDOUSLY** due to the **INCREASE OF ENERGY LEVEL** provided by the Quantum Pendant. I highly recommend this Amazing Quantum Pendant to all who want to EXCEL in social & competitive sports.

Azidi Ameran, National Bowling Champion

- Credentials include Malaysian National Bowling Team Member for the last 11 years
- 2 time Malaysian National Sports Awards Team of the Year winner
- World Team Cup Champion
- Malaysian Open Champion
- Asian Champion
- National Champion
- Ranked 11th in the world in 2007.

Since retiring from full-time bowling, I am now coaching and running the “Pin Junction” Bowling Centre with Shalin. A bowling centre business involves really long hours; we open at 10am and close at 2am everyday, 365 days a year!

Since wearing FusionExcel’s Quantum Pendant, I am able to cope with this hectic lifestyle and sometimes I’m even able to fit in a golf game or two in between and still carry on with my schedule.

The nagging pain of my old wrist injury from 17 years of competitive bowling has also stopped hurting.

Being a user and believer myself, I would definitely recommend the Quantum Pendant to everybody, especially if you love sports like I do.

Nicholas Pua, 25 years old, Kuala Lumpur. (Golfer)

I am a full time golfer turning professional soon. I practice 8 hours daily. A friend of mine introduced the FusionExcel Quantum Pendant to me.

After putting on the Quantum Pendant I find that it is able to help me to be more focused in my golf games. I feel more relax and more calm. Surprisingly I could even hit the golf ball to a further distance and with lesser effort.

I also discovered that I am able to spend more time on my putting when I put on the Quantum Pendant. I no longer feel the backache which I normally do after 2 hours of putting. My flexibility has increased as well as the energy in my body as such I don't feel that tired anymore after 8 hours of practice. It has also helped me to get good & sound sleep every night.

With so many good & beneficial health features packed into one single product which 'power' I was told could last more than 100 years makes the Quantum Pendant truly an Amazing & Value for Money product. I've recommended it to all my friends. Thank you Fusion Excel for this wonderful product which I believe will bring much help & aid to many people by improving their health & lifestyle.

Raymond Teoh, Proprietor of RGT Golf (Largest Retail Golf Store in Malaysia)

A friend introduced the FusionExcel's Quantum Pendant to me. I was immediately impressed with the amazing demos. After putting on the Quantum Pendant, I discovered that my focus in golf games as well as at work was greatly enhanced.

I was able to hit the golf ball to a further distance with the help of the Quantum Pendant and my swing and flexibility was amazingly improved.

I usually get knee joint pains after four and a half hours of golf game but after wearing the Quantum Pendant overnight, the pains disappear completely. Sometimes playing golf under hot sun gives me headache but thanks to the Quantum pendant, the headache disappears too.

The Quantum Pendant is truly an amazing product. It certainly improves a golfer's game with the additional bonus of removing all those aches that accompanies long hours of golf game at the same time. I highly promote the Quantum Pendant to all my golf customers. Thank you FusionExcel for such a fantastic product.

Rena Chong, Social Golfer

I am a social golfer, however the past six months I've not played any game of golf due to busy work schedule. Recently, on 1st January, my friends invited me for a golf game. I was quite reluctant initially, giving the excuse that I've not played for sometime and therefore, may not be able to play well. However, just after playing a few strokes, my friends were surprised because I was able to achieve good shots. They asked me "how come?" Then I told them I have the FusionExcel Quantum Pendant in my pocket. I smiled and finally reveal to them the secret about the Quantum Pendant and its amazing powers.

My friend who was wearing a Magnetic Bracelet asked me to let her try the Quantum Pendant. She tried the Quantum Pendant and confessed "it really works!" She was able to hit the golf ball straight and further distance as a result of the Quantum Pendant.

In the month of February 2007, I went for a golf game in Kota Kinabalu, Sabah. Usually the furthest distance I could achieve was about 120 meter. That day I was able to achieve a distance of 180 meter. The caddie recommended that I hit the golf ball to the side to avoid the pond. However, I took the challenge and hit the ball straight over the pond. The caddie was surprised and remarked to me, "Puan, today you banyak bagus". I replied to him that it was not me but the amazing Quantum Pendant that provided the extra help.

I have an acute back ache problem for few years. I spent about RM 100 each month to buy medicinal plaster made in Taiwan to help relieve the pain. Now, after putting on the Quantum Pendant, my acute back ache is 95% gone! Also I can save RM 1200 yearly now as I no longer have to buy the medicinal plaster. I also use the Quantum Pendant to 'charge' the drinking water overnight. After drinking the 'charged' water, I could feel the 'winds' leaving my body.

Also I have migraine problem for 20 years. Recently, I had a relapse of migraine attack in September 2006. I usually get this attack every 3 to 4 months. After putting on the Quantum Pendant in November 2006, amazingly I've not have a single migraine attack for the past 4 months and my high blood pressure also have dropped.

Rena Chong's Father-in-law

My 89 years old father-in-law has swollen feet and joint pain problem. One day I asked him to try the Quantum Pendant as it may help him. Usually he refuses to try any other health product that I buy for him. However, this time he tried the Quantum Pendant since he didn't have to consume anything. After 2 days, he still didn't return it to me, when I enquired what his opinion about the Quantum Pendant is. He said, "Can I keep it?" I smiled as he shared with me how the Quantum Pendant has relieved him of his joint pains and also reduce his swollen feet.

No words can express the joy it brings to see your own loved ones being relieved of their pains when they have suffered for so many years especially when it is within your power or ability to do so. Previously, not much could be done to help my father-in-law to ease his suffering. Now with the Quantum Pendant, this is possible.

Thank you FusionExcel for this wonderful product.

Aubrey Swee Seet Peng, Fitness First Personal Trainer, Group Exercise Instructor

Amazing Pendant!!! My name is Aubrey Swee; I'm a Fitness First Personal Trainer and Group Exercise Instructor. I got to know this pendant from Jean Daniels. I like it because it has many benefits. I had a stiff neck due to an accident on 1st Jan 2007. I went on Parasailing with speedboat alone in Penang. I'd dropped into sea, being pulled in and out of the water by the speedboat. As a result, my wrist, elbow, left knee and the back of my neck was hurt. Subsequently, I'd visited the chiropractor and the physiotherapist a few times just to get rid of this soreness. However, the back of my neck still remain stiff. I've to do a lot of stretching just to keep it flexible and the soreness away.

Miracle happened!!! Right after I started wearing the FusionExcel's Quantum Pendant for 2 weeks, this sore neck of mine started to disappear and now the sore is completely gone. Also, whenever I'm doing my personal training or class, I could do more weights with the exercise machine. This Quantum Pendant really helps me a lot. Because of this, I started to share its amazing benefits with my clients and to help them to improve their flexibility, energy or strength level. Thanks to FusionExcel for the amazing Quantum Pendant.

Rachel Ngo, 32 years old, KL

In April 2006, I had a fall and fractured my left ankle. Due to this accident, I began to use my right leg more to move about. Not long after that I realized I began to suffer from severe pain on my right leg. I was unable to bend my knees. I used to dislike walking up and down the stairs. I had to walk up one step at a time.

My situation got worse; I began to seek for doctor's advice. I was prescribed a capsule that would help to reduce my knee pain. I had to consume 2 tablets daily. Even after consuming the prescribed medicine, I could still feel numbness on the knees and the pain persisted.

One day I visited my friend. I shared with him my predicament. He immediately recommended me to try the Quantum Pendant. He tested the Quantum Pendant on me and I could immediately feel the effect in just 5 minutes. I felt there were some gushing types of movement in knees. And for the first time after so many months, I felt relieved.

Straight away I ordered the Quantum Pendant. Now after wearing the pendant for 1 week, my knees are feeling very much better. I no longer dread walking the stairs anymore. For a matter of fact, I'm even able to run up the stairs. I don't have anymore crackling sound while I walk. The uncomfortable pain on my knees has reduced substantially. Thank God for my friend who showed me the Quantum Pendant.

Thank you FusionExcel for this marvellous product.

Mali, KL

I was 49 years old when it finally dawned on me that the reason for my frequent knee pain, whenever I climbed stairs or go driving, is not only sign of old age, but a serious knee problem. I subsequently went to the doctor who prescribed glucosamine. That has been great for my knee except that I don't take it so often. I am not a great believer of taking western medication for fear of future side effect, especially on the kidney that was 5 years ago. So now, when my friend, Rena introduced me to Quantum Pendant, I signed up immediately, convinced that this is my miracle cure. I decided to stop taking the medication on the first day of wearing the pendant, just to test the effectiveness. Thank God, the pendant works for me and now, not only do I stopped the medication completely but also the pain is gone and driving long distance means continuous trip without having to do frequent stop. Thanks Rena for introducing me to FusionExcel's Quantum Pendant and thanks FusionExcel for the wonderful product.

DATIN HJH CHE BARNI BT HJ MOHD NOOR, KL

I wish to share a personal experience about how the FusionExcel Quantum Pendant has helped to Change My Life. In July 2006, while holidaying in Langkawi, I was struck with an unidentifiable sickness. From being able to walk, I was suddenly bedridden overnight. The pain was so excruciating that I cried every time I move even a tiny bit. I was transferred by ambulance to Alor Setar General Hospital and was hospitalized for two weeks. From the MRI they discovered there were damages to my Lumber 3, 4 and 5 and as well as to my Sacrum 1.

Many doctors advised me to accept the worst, that I will be confined to a wheelchair. I refuse to accept that fate and began my therapy for about three months. Even then I still can't walk more than five steps without having to grab hold onto something for support. I cried with every walk because of the severe pain. Since the disease also affected my nervous system, my left leg could not function normally. My left leg get confusing signals that at times it felt pricking pains or numbness and at other times it gets severe pain. I could not sleep at night because my whole body was in pain.

I met someone in KL selling the FusionExcel Quantum Pendant. I was skeptical about the pendant initially but I have nothing to lose but to try anything. Strangely enough, as if it is a miracle, after continuously wearing the Quantum Pendant, the pain begins to subside especially on my left leg. I am able to get good night sleep again, something which I was deprived of for several months. Recently I was even able to travel overseas to Cairo, Alexandria, Dubai and Abu Dhabi with ease. As a Muslim, I believe Allah will help me to find a cure as long as I never give up but to strive for a cure.

Now I am so thankful that I am able to get back my NORMAL LIFE again. Some of the doctors are even amazed & curious at my speedy recovery. My blood pressure is normal again and I feel energetic. I go to office as usual and DO NOT feel anymore pain in my leg especially when the air conditioner is on compare to the pain I get when the room is cold without wearing the Quantum Pendant. I believe the Quantum Pendant has contributed & assisted me much to get my Normal Life back again.

Thank you FusionExcel for the amazing Life Changing & Saving product!

Joyce, KL, 45 years old

When I was first introduced to the FusionExcel's Quantum Pendant by my colleague, I was rather doubtful about the product. However, with several simple demonstrations, it impressed a lot. I decided to buy one for myself.

As I brought it home, I wore it on myself and I used it to energize the drinking water. My family thought it was a crazy act to spend such amount for the Quantum Pendant. They suggested I should buy gold pendant instead!

What a coincidence, my 10 year old son complaint of ear pain. I brought him to see doctor and he still complained about the pain after medication. He even cried whenever the ear medication prescribed by doctor was applied to his ear.

I decided to put on the Quantum Pendant around his neck and let him drink the energized water. On the following day, he told me that the ear pain has already disappeared. However, since it helped him to get rid the pain he kept on wearing it. Two days later he accidentally hit the Quantum Pendant to the basin. It cracked and broke into few pieces. The Quantum Pendant was glued back by my spouse without my knowledge.

Before I went off for Chinese New Year holidays, I simply put the Quantum Pendant under my "Lokam" (mandarin oranges) on display at the living room. What a surprise I found that the "Lokam" still looks fresh and juicy even after one week. I compared the "charged" mandarin oranges with some other mandarin oranges from the fridge. The mandarin oranges in the fridge look like old lady skin and dry compared with those mandarin oranges displayed at the living room which was charged by the Quantum Pendant.

Additionally I even compared them to the small pineapple on display at the living room which normally would last longer. However unlike the "charged" mandarin oranges, the small pineapple looks very dry and rotten too.

The Quantum Pendant is truly an amazing product. Although it already broke (and glued back) I still treasure it.

Suraya Hj. Abdul Rani, 46 years old, KL

Due to a road accident, I have had arthritis in my right knee for the past 22 years. Lately, for the past 6 years, my knee has gotten worse as I have had to manage my two physically handicapped boys aged 19 and 22 on my own daily. To make matters worse, I stopped taking the pain killers that were making me put on weight continuously. I couldn't shake off the weight until I started taking FusionExcel's Fat Loss Program.

However last week, another miracle happened. I decided to try the Quantum Pendant, just for the fun of it. Guess what, that same night, all the pain in my knee which I had for 22 years disappeared. Not only that, I could turn both my knees any way I want and I could get up and walk immediately without pain, something I couldn't do before. You should try it, using is believing!

Madam Tan

My 72 yrs old mother suffered a stroke. During the 2 weeks after the stroke she was always in the state of semi-consciousness & sleeping most of the time. My friend asked me to try FusionExcel International's Quantum Pendant on her to see if it could bring any help to her. After only putting on FusionExcel International's Quantum Pendant for just few hours, I was amazed to see her able to sit up on her own & being in a more conscious state. I am truly excited about this amazing product. Thank you FusionExcel for such an amazing product!

Mr. Lee LH

I suffered a few crushed ribs from a vehicle accident I met with last year. I was not able to lift my arms as a result of the crushed ribs. My friend brought the FusionExcel International's Quantum Pendant to let me try. After putting on the Quantum Pendant for less than an hour, a miracle happened! I was not only able to move & lift my arms easily; I could even swing my arms! I could hardly believe it myself! It's a miraculous product! I immediately bought some to give to my family members too. I also recommend it to all my friends. Thank you FusionExcel.

Nirmala, Klang, 27 years old

On Thursday evening (5th October 2006), I returned home from work to find my mother laying on the sofa looking very tired. Being concerned I immediately ask her what has happened to her because I fear that she might have another relapse of heart attack. She complained to me that her whole body was aching and was having high fever. Immediately I decided to let her put on the Quantum Pendant. Subsequently I went about doing my chores. About half an hour later, I came back to check on her condition. However I found her missing from the sofa. I panic & look everywhere not knowing what has happened to her. To my surprised I saw her standing at the gate.

She looked much better & was more cheerful. She told me that the high fever has amazingly subsided & also that she felt more energetic to walk around. I am truly happy that the Quantum Pendant is able to bring instantaneous healing to my mother in just a matter of 30min!

On Sunday (8th October 2006), my father took me to visit one of his friends who were suffering with pain all over his body. After putting on the Quantum Pendant for about half an hour, he told us that he can feel very much relieved from his body aches. Prior to our visit, he could not even lift up his right arm on itself without the help of his left hand raising it. However after wearing the Quantum Pendant for 30min he was not only able to miraculously lift his right arm on its own, he could even swing it around on its own and without pain!! Thank you FusionExcel for such a wonderful product!

Mr. Wong KH

My 63 yrs old father had an accidental fall in November last year. As a result his neck was affected & was weak. For the past two months, his head was stoop down most of the time & he was not able to utter many words or speak long sentences. My nephew introduced the FusionExcel International's Quantum Pendant to me. I was skeptical about its healing powers initially. But anything that could possibly help to improve my father's condition without putting him in any risk or danger is always worth a try. After all there was nothing to loose by trying.

After putting on the FusionExcel International's Quantum Pendant on my father for about 2 hours, he was able to lift up his head normally again! Not only that, he even spoke to me continuously for 2 amazing hours! I am so happy that my father's condition is improving as a result of the Quantum Pendant. I immediately ordered the Quantum Pendants to give them to my family members too. Thank you FusionExcel for the incredible Quantum Pendant!

Maramah, Klang, 34 years old

The Quantum Pendant gave me much relief from the nerve pain on my foot, which I had for more than 3 years. I had to wear flat shoes. After only wearing for 2 hours, I experienced much relief. Now, I can finally wear the high heels again. Not only that, I can also walk longer distances without the nerve pain. I feel more energetic. Even though I sleep late, when I get up, I don't feel any giddiness, and I am not tired at all.

A friend of mine has an 8 year old son, who was admitted to the hospital. She told me that her son doesn't have any appetite and did not take any foods or even a drop of milk that day. She invited us to try the Quantum Pendant on her son to see if it could help him. Initially I was quite hesitant, since the patient was a young child. But the mother was quite insistent, so my friends and I visited the boy at the hospital.

We let the boy wear the pendant for 20 minutes. Subsequently, we let him drink the water which was energised by the Quantum Pendant. Within 10 minutes, the boy could sit up on his own. Subsequently, we left the hospital. Just 10 minutes later, the mother called me to inform that her son has asked for rice to eat. We were all thrilled at the amazing result of the Quantum Pendant even on a young child.

In another case, there's an elderly lady who was bed-ridden for 4 years. Likewise, we did not dare to try the Quantum Pendant on her, but due to a friend's insistence, again we went to try the Quantum Pendant on her. We energised the water using the Quantum Pendant over her neck. Her daughter told us that normally her mother could not sit up more than 15 minutes at any one time. That night, after drinking the energised water and wearing the Quantum Pendant, she could sit up for 45 minutes.

The Quantum Pendant is truly an amazing product. It has now become my soul mate!

Alice Phua, KL, 38 years old

When I wear the Quantum Pendant, I feel not so tired at the end of a hectic working day. I can also walk up to or 3 flights of stairs without feeling short of breath. Also, while I was having a sore throat, I placed the Quantum Pendant on my throat and I feel the relief of less pain. Thank you, FusionExcel, for a wonderful product!

Intan Sofia, Selangor, 41 years old

I am one of the temporary beauticians in FusionExcel. I have to treat a lot of customers daily. Sometimes up to a hundred or more. Frankly, I usually feel tired but always try to give the best service to all.

Fortunately, few days back, FusionExcel gave me the chance to put on the Quantum Pendant. It was tremendously good. I didn't feel tired like before. I felt more energetic instead. I am still wearing it now. The number of customers is no longer a big issue for me, in fact, the more the better.

KIT, KL, 24 years old

Wearing the Quantum Pendant makes me feel more energetic. I have also tried the demos with lemon juice and wine, it is amazing! Just within a short period of 15mins, I can feel the power of the Quantum Pendant. Not only can I see it, I feel it and now I believe it. FANTASTIC!

Charlie Ho, KL, 48 years old

I was having a back ache for 2 weeks. After putting on the Quantum Pendant for a day, the pain has remarkably reduced. The other day during the demo of the Quantum Pendant, I was amazed that 2 ladies and 2 men who could not lift me up, tall and heavy as I am, suddenly were able to do so within just a few minutes of clasp on the Quantum Pendant. It is truly an amazing product.

T.H.Tan, Petaling Jaya, 46 years old

I used to be breathless when I climb the 5 flights of stairs to my office. When I started wearing FusionExcel's Quantum Pendant, I was amazed that I can now climb the same 5 flights of stairs WITHOUT becoming breathless! Not only that, I am now full of energy all day long and I can also focus more sharply on my work. My overall endurance has improved. Thank you so much, FusionExcel, for your amazing Quantum Pendant!

Sherry Leong, Penang, 46 years old

Firstly, I would like to thank FusionExcel for introducing me to this wonderful product (Quantum Pendant). Previously, I would be quite tired after a whole days work, and experienced migraines on and off. But after a few days of wearing the Quantum Pendant, I felt very energetic and my mind felt very focused and relaxed. All fellow members of FusionExcel, please get yourself one or you will regret it, because it really does improve our health condition.

Chan Cheng Yee, KL, 42 years old

I am simply impressed with FusionExcel's new Quantum Pendant. When I put on the Quantum Pendant, I feel energetic and can work on the PC up till early morning (3am) without even feeling tired, which I normally do without the Quantum Pendant. I introduced the Quantum Pendant to my friend who had spinal back ache and just amazingly within 20 minutes, she could feel the relief. My cousin who also bought the Quantum Pendant told me that after wearing it her ankle pain has subsided substantially. Thank you, FusionExcel, for another wonderful product.

John Chang, KL, 38 years old

I used to consume energy drinks like Livia and Redbull as well as B-Complex supplements daily because I usually felt tired by the end of the day. After putting on the Quantum Pendant, I don't feel tired even past midnight. There is a sustained constant supply of energy to the body. I used to spend more than RM200 each month on energy drink and supplements. Now, it is a RM2400 yearly savings for me!! I was told that the Quantum Pendant can supply the energy incredibly forever! Wow, that's super savings! Thank you, FusionExcel for another fantastic product.

I believe this product will help a lot of people who need to re-energize themselves now and then especially those working long office hours or double shifts, taxi, bus and lorry drivers, security guards, construction workers, or who partake in activities like mountain hiking, climbing, cycling, jogging and other exercise and sports. With the Deepavali & Hari Raya coming, many will "Balik Kampung". The Quantum Pendant would help many drivers balik kampung without feeling tired and more alert during the long hours of driving and more importantly it will means safety for their own family members & passengers in the car as well as other cars too by not knocking into them due to tiredness.

Siti Khadijah Abu Hassan, Cheras, 33 years old

I am a 90 kg lady who still likes to wear high heels while doing my work as a temporary beautician in FusionExcel. I guess you guys out there can imagine how difficult it is for me to carry my own weight running here and there to treat and service customers, washing necessary items, changing bed sheets, towels and a lot more, especially now, which is the fasting month, without food I feel as if my energy is all gone.

However, thanks to FusionExcel for lending me the Quantum Pendant to rectify the problem. I am feeling much more energetic and active after wearing it; it was as if my weight is just 50 kg! Now, I don't easily feel hungry and tired so fast like last time. I feel good!

Fairus Salleh, Pantai Dalam, 23 years old

I am one of the workers of FusionExcel. Everyday I handle stocks. One day, FusionExcel loan me a pendant to wear. Since this pendant is believed can give more energy, I too wanted to try it.

Honestly, I feel more energetic after using this "miracle" pendant. If last time I can only carry 3 boxes in one time, but by using this pendant now, I can carry 4 boxes. Plus, I feel less exhausted.

You could not feel it without trying it. Seriously, this pendant is really superb.

David Phua, KL, 43 years old

I want to thank the company FusionExcel for bringing such a wonderful product, Quantum Pendant. The benefits I got from:

Wearing the Quantum Pendant, I feel:

- less tired
- more focused
- better endurance while on a job

Drinking the water charged by the Quantum Pendant:

- The pain that I have on my right arm when I lift a heavy load is less painful.
- Feel less sleepy

Thank You
